

HackSheffield 2.0 – Version 2 of the Sheffield Student Hackathon.

What? A student-run Hackathon, bringing up to **120** of the UK's brightest student developers, designers and entrepreneurs together for **24 hours** of hacking over the **15th and 16th of October**.

A hackathon? Teams of 2-4 students come together to create solutions using all the technology at their disposal, competing in the main event or for sponsored prizes. Your sponsorship will help this become a reality.

What do you get?

- Increase the reach of your brand – ensure you maintain your association with fast-paced innovation by the talented student developers, designers and entrepreneurs of the future.
- Get feedback on your development products – got an API, library or dataset hackers can use?
- Recruit talented interns and graduates.
- More
