# #MAKE WAVES

By participating in the third annual UCSB hackathon, your company will be recognized in cultivating creativity and innovation. We proudly encourage students to create original projects using your API, platforms, and tools.

Your sponsorship will spawn the creative workspace and fund the ambitious ideas of 500 students for 48 hours with :

PERK GUIDE

HACKER QUERY INTERFACE + COMPANY WEB PAGE

Our dev team is building a web interface to enable you to query our database of hackers directly. Similar to a mini-LinkedIn Premium, but with your potential candidates being right there at our event. As well as design a sbhacks.com/$company page with information on your challenges, products, and any marketing or branding content. These interfaces will greatly improve sponsor-hacker interaction and enhance your ability to recruit from our event.

You will be able to:

- **VIEW ALL HACKERS GITHUB AND LINKEDIN PROFILES**

- **SEE WHICH OF THEM ARE IN ATTENDANCE**

- **VIEW NAMES, EMAIL ADDRESS, LANGUAGE, SCHOOL, EXPERIENCE, YEAR, AND RESUME**

- **SEE WHICH CHALLENGE(S) THEY ARE GOING FOR**

PREMIUM FEATURES

- **SEND MESSAGES TO A SPECIFIC HACKER'S PHONE VIA TWILIO**

- **SEND A (STAFF APPROVED) MESSAGE TO ALL OR A SUBSET OF HACKERS**

- **EXPORT DATA INTO A CSV FILE AND FOLDER**

SPONSOR TIERS
