# DESERT HACKS

sponsorship package

Dear Potential Sponsor,

What is Desert Hacks?

Desert Hacks is a student-run organization based at Arizona State University. Collegiate hackathons have been a fast-growing movement across the country — these events have brought together students from all backgrounds into a common space that embraces collaboration and creativity, a culture that we would like to bring here to Phoenix, Arizona. As we attend the largest university in the nation, our team sees the opportunity to build a supportive and flourishing community of inspired students upon this strong foundation.

Our vision is to bring three hundred and fifty student hackers of all backgrounds together for a 24-hour session of bringing their ideas to life. By attracting students from around the country to our annual hackathon, we will cultivate the local tech community and provide students brand-new opportunities and connections. Together, we can build a strong and nourishing environment for students to grow as innovators and leaders.

Why Sponsor?

This year, Desert Hacks will be co-hosted by Galvanize and will take place on February 11th-12th, 2016 at their campus in Phoenix, Arizona. By sponsoring Desert Hacks, you are opening the doors to a new world for students across the nation. In addition to fostering student growth, your support will also benefit your own organization in several ways.

By sponsoring, you have the chance to:

- Network with top students from around the country
- Gain access to resumes and portfolios
- Interview students for job or internship opportunities on site
- Provide mentorship for students in their tech ventures
- Market your company and brand to all of the attendees
- Showcase your products and APIs

With your support, we can usher in a new movement of technological innovation and provide ourselves and each of our passionate participants with an experience to remember. If there any questions or concerns, please do not hesitate to contact us at sponsor@deserthacks.org.

We hope to hear back from you soon and look forward to working together to turn our vision of Desert Hacks into reality.
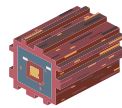

Thank you for your time,

The Desert Hacks Team
